SUMMARY

Java Full Stack Developer with professional experience in Spring Boot, React, PostgreSQL, REST APIs, and Agile delivery. Contributed to a healthcare platform serving 10,000+ users by building API endpoints, optimizing SQL queries, developing reusable UI components, and delivering sprint tasks with 90%+ on-time completion. Seeking a Java Full Stack Developer role with end-to-end ownership.

PROFESSIONAL EXPERIENCE

Software Development Engineer Trainee , Cloudium Software Pvt. Ltd. Feb 2026 - Present

Equip - Behavioral Health Care Platform: enterprise app for 10,000+ clinicians/patients; full-stack development in a 20+ developer Agile team.

- Implemented 4+ RESTful endpoints (Spring Boot @RestController/@Service, bean validation, centralized exception handling), reducing malformed-payload errors by 15%.
- Persisted and queried PostgreSQL via jOOQ type-safe SQL , optimized slow queries with indexing, cutting response time by 12%.
- Built 8+ reusable React components with Hooks and a Redux Toolkit store (slices, createAsyncThunk), adopted across 3 modules and cutting duplicated UI code ~30%.
- Wrote JUnit tests for owned service logic and fixed 8+ bugs with zero regression escapes to staging.
- Delivered 15+ sprint tickets via feature-branch Git workflow (PRs, code reviews) with 90%+ on-time completion.

Web Developer , SQARIS

July 2025 - Jan 2026

WIE Project (Multimedia Social Media Platform):

- Developed frontend interfaces for an asset-heavy multimedia platform.
- Created reusable components with React.js and Next.js, improving page-load responsiveness by 10%.
- Integrated frontend views with backend REST endpoints, mapping dynamic data structures to keep client-side state synchronized.
- Identified and resolved minor rendering bottlenecks, helping stabilize core UI features.

SKILLS

- **Programming Languages:** JavaScript, Java, SQL, HTML5
- **Technologies & Tools :** Spring Boot, RESTful APIs, Microservices Architecture, React.js, Next.js , PostgreSQL, Flyway (Database Migrations), Docker, Git/GitHub, GitLab, Jira , Maven , JUnit ,CSS , Jest
- **Core Methodologies & Practices:** Agile/Scrum, Object-Oriented Programming (OOP)

EDUCATION

Government Engineering College, Thrissur

July 2022 - May 2026

B.Tech in Electronics and Communication Engineering.
CGPA -7.88

PROJECTS

Education Management System - Java 21 • Spring Boot • Spring Security • JWT • React 19 • RTK Query • Chakra UI

GitHub: [[GitHub - Vishnu-dk/Education_Management_System_Frontend](https://github.com/Vishnu-dk/Education_Management_System_Frontend)] (Spring Boot) | [[GitHub - Vishnu-dk/Education_Management_System_Backend](https://github.com/Vishnu-dk/Education_Management_System_Backend)] (React)

- Built role-based full-stack platform with JWT-secured REST APIs, Spring Security RBAC (3 user roles), and custom fine-calculation workflows.
- Developed responsive dashboards with Chakra UI and RTK Query for automated API caching and real-time state sync.

NextUp - Productivity & Kanban Platform - FastAPI • PostgreSQL • Alembic • Flutter • Riverpod |

GitHub : [GitHub - Vishnu-dk/NextUp](https://github.com/Vishnu-dk/NextUp)

- Engineered Kanban app with FastAPI REST APIs, JWT auth, card-reordering logic, and Alembic migrations; Flutter UI with Riverpod state.
- Designed productivity analytics dashboard with Sunburst charts tracking task distribution.
